# Background

The data presented in this data dictionary were collected through the 2011 Survey of State Welfare Agencies. This survey is part of a larger study conducted by the Vocational Rehabilitation - Rehabilitation Research and Training Center (VR-RRTC) at the Institute for Community Inclusion at the University of Massachusetts Boston. The Center is funded by the National Institute on Disability and Rehabilitation Research and the Rehabilitation Services Administration. This survey was part of a larger effort to collect data on the characteristics of state VR agencies and how they work with other federal, state, and local agencies that provide employment services for people with disabilities. This survey was reviewed and approved by the Council of State Administrators of Vocational Rehabilitation (CSAVR).

## DATA COLLECTION METHODS

The 2011 Survey of State Welfare Agencies was distributed between July 11 and October 4, 2011. The survey was sent to the Welfare agency director(s) in each state, as well as the territories. The survey was completed by directors of Welfare agencies. Directors (or their designee) were asked to respond on behalf of their entire state / territory. The survey was administered online.

## SAMPLE

Of the 55 Welfare Agencies, 26 agencies responded to the survey. This resulted in a 47.3% response rate. Twenty-nine agencies opted out of the survey.
