

Explore VR

THE NATIONAL SURVEY OF STATE MENTAL HEALTH AGENCIES
DATA DICTIONARY

August 2012

Institute for Community Inclusion
University of Massachusetts Boston

Explore VR is funded by the VR-RRTC project. The VR-RRTC is a five-year cooperative agreement with the National Institute on Disability and Rehabilitation Research (NIDRR) and the Rehabilitation Services Administration (RSA) of the US Department of Education, Grant # H133B070001.

Background

The data presented in this data dictionary were collected through the 2011 Survey of State Mental Health (MH) Agencies. This survey is part of a larger study conducted by the Vocational Rehabilitation - Rehabilitation Research and Training Center (VR-RRTC) at the Institute for Community Inclusion at the University of Massachusetts Boston. The Center is funded by the National Institute on Disability and Rehabilitation Research and the Rehabilitation Services Administration. This survey was part of a larger effort to collect data on the characteristics of state VR agencies and how they work with other federal, state, and local agencies that provide employment services for people with disabilities. This survey was reviewed and approved by the Council of State Administrators of Vocational Rehabilitation (CSAVR).

DATA COLLECTION METHODS

The 2011 Survey of State Mental Health Agencies was distributed between June 20 and September 26, 2011. The survey was sent to the MH agency director(s) in each state, as well as the District of Columbia, and the territories (American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands). The survey was completed by directors MH agencies. Directors (or their designee) were asked to respond on behalf of their entire state / territory. The survey was administered online.

SAMPLE

Of the 55 Mental Health Agencies, 30 agencies responded to the survey. This resulted in a 54.55% response rate. Two agencies opted out of the survey.

Data

RESERVED CODES

Value labels for all variables are included in the data dictionary. Consistent across all variables are the following values and codes:

| | |
|----|-----------|
| -9 | MISSING |
| -7 | NOT ASKED |

DATA DICTIONARY STRUCTURE

Each entry in the data dictionary includes the survey item (or variable name), data type (NUM or CHAR), variable and branching structure. Each entry also includes a variable position, which refers to the location of the variable in the dataset. If the variable was removed from the data set due to potentially inaccurate reporting it is noted in the entry.

Variables

SECTION A: ORGANIZATIONAL STRUCTURE, PROGRAMS AND STAFFING

| | | |
|--|------|---|
| Q1 | NUM | 2 |
| <i>This survey is intended to be completed by the State MH Director. Are you this person?</i> | | |
| Response: 1-yes; 2-no | | |
| Branching: If 2- Specify title | | |
| Q1_2_specify | CHAR | 3 |
| <i>Specify your title</i> | | |
| Response: | | |
| Branching: None | | |
